

ANIMAL EMOTIONS

Certificate of completion

CECILIA KARLSTRÖM

completed the course "Animal Emotions" hosted by ILLIS ABC

Students learn the importance of emotional experiences on animals' personalities, social skills and stress sensitivity. The course covers three major frameworks exploring emotions: Core Affect Space, Polyvagal Theory and Panksepp's Core Emotions Concept. For each of the core emotions (CARE, GRIEF, PLAY, LUST, SEEKING, FEAR, and RAGE) there's one module detailing how that particular emotion impacts animals' brains, behaviour, and learning – and what animal guardians can do to optimize welfare to get happy animals who thrive with people.

Course length: approximately 10 hours

A handwritten signature in blue ink, which appears to read 'Karolina Westlund'.
